INTERVIEW GUIDE FOR EMERGING TECHNOLOGY ADOPTION

Manila Manufacturing Corporation (MMC)

Prepared by: _____ John David Javier _____

Course/Section: _____ BSCS 3B _____

Instructor: _____ Johneros Puyo _____

Date: _____

1. Introduction / Interviewer Instructions

This interview guide is designed for Manila Manufacturing Corporation (MMC), a medium-sized company that produces consumer goods. The purpose is to understand the company's current technology situation, awareness of emerging technologies, readiness, challenges, skills, budget, and implementation capacity.

Ask the questions naturally and give the interviewee enough time to explain. For answers that need more detail, use simple follow-ups such as "Why?", "How?", or "Can you elaborate?" Record important points in the space provided. Avoid leading the interviewee toward a particular answer.

2. Interviewee Information

Interviewee Name	
Position/Role	
Department	
Years in the Company	
Interview Date	

3. Interview Questions

BACKGROUND AND CURRENT STATE

Can you briefly describe how technology is currently used in MMC's daily operations?

Answer: _____

What parts of the manufacturing process are still mostly manual?

Answer: _____

What technology-related problems or delays do employees commonly experience?

Answer: _____

What software, machines, or digital tools are already being used at MMC?

Answer: _____

How does MMC currently collect, store, and use production or customer data?

Answer: _____

What improvements would you most like to see through the use of technology?

Answer: _____

TECHNOLOGY AWARENESS AND READINESS

How familiar are you with emerging technologies such as AI, machine learning, AR, IoT, cloud computing, big data, and quantum computing?

Answer: _____

Which of these technologies do you think could be useful for MMC, and why?

Notes / Response: _____

How does your team usually learn about new technologies?

Notes / Response: _____

Do employees generally feel ready to use new digital tools? Why or why not?

Notes / Response: _____

What concerns do employees have when new technologies are introduced?

Notes / Response: _____

INDUSTRY AND COMPETITIVE ANALYSIS

What technology changes have you noticed in the manufacturing industry?

Notes / Response: _____

How important is emerging technology for MMC to remain competitive?

Notes / Response: _____

What could happen if MMC does not adopt technologies that competitors are already using?

Notes / Response: _____

SPECIFIC TECHNOLOGY AREAS

How could Artificial Intelligence (AI) help improve MMC's production or decision-making?

Notes / Response: _____

Where could Machine Learning be useful in MMC, such as finding patterns or making predictions?

Notes / Response: _____

How could Augmented Reality (AR) help with training, repairs, warehouse work, or instructions?

Notes / Response: _____

How could the Internet of Things (IoT) be used with connected machines or sensors?

Notes / Response: _____

Would MMC consider Cloud Computing for storing data or supporting business and production systems? Why?

Notes / Response: _____

How could Big Data Analytics help MMC understand large amounts of production or customer information?

Notes / Response: _____

What is your current understanding of Quantum Computing, and do you see any possible future value for MMC?

Notes / Response: _____

Which emerging technology would you prioritize first, and why?

Notes / Response: _____

SKILLS AND CAPACITY

What technical skills do employees currently have that could support technology adoption?

Notes / Response: _____

What new skills or training would employees need before these technologies could be used effectively?

Notes / Response: _____

BUDGET AND IMPLEMENTATION

What budget, equipment, infrastructure, or other resources would MMC need to begin adopting an emerging technology?

Notes / Response: _____

What challenges could prevent MMC from successfully implementing a new technology?

Notes / Response: _____

If MMC started with one emerging technology, what would be the best first step and how would you measure its success?

Notes / Response: _____

4. Closing

Thank the interviewee for their time and ask if there are other technology needs, concerns, or recommendations they would like to add.

Closing Notes: _____

5. AI Checker and Grammarly Results

AI Checker Result:

RUBRIC FOR EVALUATION

Criteria		Excellent Standard	Score
Completeness of Sections		All 9 sections complete and well-organized	/15
Question Quality		Questions are clear, relevant, and probing	/15
Coverage of Technologies		ALL emerging technologies covered thoroughly	/25
Alignment with Scenario		Questions perfectly match the MMC scenario	/10
Open-Ended Questions		Excellent mix with effective probes	/10
Professional Format		Very professional, clean, and organized	/15
Practicality		Questions are practical and usable	/10

TOTAL SCORE: _____ /100
